

CLASSIC PRO  
2x9

CLASSIC PRO  
2x18

## Features

The newly launched Classic Pro Bubbler Range is a versatile and efficient solution for **cold beverage dispensing**, designed to meet the diverse needs of commercial spaces.

This range allows you to serve a **wide variety of beverages** with its flexible model options. Available in both **2x9-liter and 4x9-liter and 1x18-liter and 2x18-liter configurations**, it is ideal for businesses seeking compact or high-capacity solutions.

Whether you're serving **fresh juices, teas, flavored water, or cocktails**, the Classic Pro ensures that every drink is dispensed at the perfect temperature, delivering consistent quality with every pour.

Each model in the range is engineered with **high-efficiency cooling technology for fast start-up** and optimal performance.

The stainless steel panels provide durability while maintaining a **sleek, professional appearance**, making these dispensers a stylish addition to any setting. For added convenience, the **easy-off release bowl system reduces cleaning time**.

Additionally, the **interchangeable bowl system** allows you to **swap out the 9-liter bowls for larger 18-liter ones**, offering flexibility based on your needs.

The Classic Pro Range delivers the perfect blend of **functionality, reliability, and modern design**—meeting the needs of businesses looking to enhance their beverage service with **minimal effort and maximum efficiency and flexibility**.

## Smart Features for Superior Beverage Service

**Maximum versatility:** Choose between **2 or 4 bowls (9 liters each)**, or **1 or 2 bowls (18 liters each)**, to perfectly match your service needs and volume requirements.

**One base, interchangeable bowls:** Keep the same base and swap between 9-liter and 18-liter bowls as demand changes.

**Elegant and robust design:** Stainless steel base and clear plastic bowls offer a **professional and enticing look**.

**Fits every format:** Compatible with cups **up to 20 cm in height**—ideal for venues offering a wide range of beverages.

**Zero waste:** Smart design ensures **every last drop is dispensed**, optimizing costs and minimizing waste.

**Superior beverage quality:** Agitation function with **low-foam impeller** cover, perfect for fresh juices, coffee, vitamin water, or tea, guaranteeing **smooth mixing and impeccable presentation**.

**Advanced technology:** **Magnetic submerged impeller** delivers silent and efficient mixing.

**Easy maintenance:** **Quick-release bowl system** allows for fast and effortless assembly and disassembly.

**Efficient cooling:** **Air intake from the bottom and rear exhaust** ensure optimal refrigeration, even in compact spaces.

**Wow effect:** Optional **spray function** creates dynamic product movement, attracting customers and enhancing visual appeal.
