SO-SOFT

SO-SOFT

Soft ice cream and frozen yogurt, just the way you like it

With its **elegant and contemporary design, strong efficiency, and focus on ergonomics**, the SO-SOFT is created for those who want to deliver frozen experiences through compact, high-performing equipment.

Available in **pump** and **gravity** versions, SO-SOFT is the ideal solution for bars, cafés, and ice cream corners. The **pump system** incorporates more air into the product, ensuring a **high overrun**, which makes the **ice cream softer and lighter while maximising profitability**, whereas **gravity system** ensures **easier handling**.

Three different levels of consistency can be set for the finished product, allowing you to adapt to any style of service.

The machine is designed to deliver **optimal performance**.

The **new insulated lid** and refrigerated tank guarantee **fast production times**.

SO-SOFT

SPM

- **Modern design** with soft shapes, steel finishes, and total black front
- **Ergonomic flange** to facilitate dispensing
- **Insulated lid** for better temperature retention in the tank
- **Refrigerated tank** to reduce dispensing times
- **Head unit optimized** for durability and superior performance
- Productivity up to **9kg/hour**
- **Energy-saving standby mode** during idle periods
- Natural refrigerant **gas R290**
- Intuitive and **simple control**
- **Acoustic signal** for minimum product level
- **Compact dimensions**, ideal for countertop placement
